

EDUCATION

Educate the health care workforce for the 21st century.

IMPERATIVE: Develop next-generation interprofessional education

Optimize relationships with high-quality learning sites

Create more personalized professional training

Co-fund faculty joint appointments

Expand professional training

RESEARCH

Focus the full range of cutting-edge science on diverse challenges to health in Texas and beyond.

IMPERATIVE: Build capabilities for clinical research and commercialization

Create thematically focused research partnerships

Foster proof of concept business plans for research themes

Enhance the culture of research mentorship

CARE DELIVERY

Establish digitally-enabled, multi-disciplinary teams that improve access and responsiveness to needs.

IMPERATIVE: Establish a sustainable and scalable clinical infrastructure

Expand our partnerships with major health systems

Increase practice locations and services

Provide technical assistance and services to promote population and community health

COMMUNITY

Expand our engagement with Texas communities.

IMPERATIVE: Expand the geographic focus of our community

Establish incentives and accountability for faculty community engagement

Collaborate across Texas A&M to develop joint community engagement programs

Boost for-profit and non-profit partnerships

THE ROLE of Texas A&M Health is to **ENHANCE RESOURCES, REDUCE BUREAUCRATIC FRICTION** and **IMPROVE ACCOUNTABILITY** for our schools, colleges and institutes. This requires:

Strong Partnerships

Build capabilities for effective, strategic partnerships

Enhance shared functions that do more with less

Financial Discipline

Improve financial accountability and integrated budgeting

Diversify sources of revenue

Diverse & Inclusive Culture

Nurture a culture of inclusive excellence to bolster diversity

Invest in the well-being of faculty, staff and students
